PROJECTS

Live it Up: RPG — March 2021

A Role-Playing OOP Game programmed using Java on Eclipse. You upgrade your abilities by completing tasks and win by defeating three enemies, whom you make by having a negative interaction with them.

Resourca: Web App — February 2021

A web app built using the Django framework for students/teachers to find course material from a database. A group hackathon submission that won the education category.

Com-Sci Survivor: Greenfoot Game — May 2020

A fully functioning OOP game made with Greenfoot. An adventure game featuring two players who work together to collect coins and avoid obstacles such as spikes.

EXPERIENCE

Customer Service — Subway

June 2019 - October 2019
